

# TEUB

## CLEANING GEL FOR WC WASHBOWLS BASED ON PLANT EXTRACTS

### DESCRIPTION

**TEUB** is a preparation based on an association of acid functions, plant extracts, surfactants of vegetable origin, viscosity additive, essential oil of plants, selected for their biodegradability and their easily renewable origin.

**TEUB** is a cleaning gel which restores the cleanliness and the new shine of WC washbowls, even those heavily scaled.

Thanks to its packaging equipped with a sloping neck, **TEUB** enables you to descale and disinfect the most difficult to reach areas while deodorising the cleaned parts at the same time.

The **TEUB** descaling action is not lessened by the presence of sea water contrary to other descalers whose action is slowed down by sea water.

**TEUB** is compatible with biological treatments.

### TECHNICAL DATA :

Physical State: Freeze.  
Density: 1039 g/l +/- 20g/l.

Colour: Lagoon blue  
Smell: Fresh woody

### INSTRUCTIONS OF USE :

To start with, apply the gel on the rim of the washbowls then over the whole surface.

Leave the descaler to react a few minutes depending on the thickness of the scale and pump.

In the event of particularly scaly washbowls, apply **TEUB** in the evening, leave to react all night then flush the chain.

BIODEGRADABILITY: Easily biodegradable product

ECOLOGICAL: Ecotoxicity according to DIRECTIVE 2005/344/EC VCD Tax compliant in conditions of use

**Ref. 522M - Bottle 1L**

Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.

Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to [servicetechnique@mattchem.fr](mailto:servicetechnique@mattchem.fr).
